

First International Conference on  
**Construction in the 21<sup>st</sup> Century**  
Challenges and Opportunities in Management and Technology

*April 25-26, 2002, Miami, Florida, USA*

<http://www.fiu.edu/~citic>

## **Contents of Proceedings**

### **Keynote Papers**

1. Design and Construction for the Rest of Us  
*Boyd C. Paulson, Jr.*
2. Construction Industry Characteristics and the Implications for Research: A Hong Kong Perspective  
*Michael Anson*

### **Cost Engineering and Financial Issues**

#### **Cost and Financial Management**

3. Non Value-Adding Costs in Building Projects: The Missing Thoughts  
*Pre-Erik Josephson and Peter Samuelsson*
4. Applying Earned Value Technique to Korean Construction Industry  
*Sang-Chul Kim, O-Cheol Kwon and Joon-Hong Paek*
5. Bricklayers' Perspectives on the 'Buildability' of the Bed-Joint and the Threat to Standardisation Vis-À-Vis Cost Optimisation  
*Vasantha Abeysekera and A Thorpe*
6. Economic Result of Learning Lessons  
*E. William East and Jeffrey G. Kirby*
7. Cash Flow Forecasting Model using Moving Weights of Cost Categories for General Contractors on Jobsite  
*Hyung-Keun Park and Jeffrey S. Russell*
8. Hispanic and Non-Hispanic Wage Differentials: Implications for the U.S. Construction Industry  
*Paul M. Goodrum*
9. Application of Oracle/Case in Project Cost Control System Design and Development  
*Guangbin Wang, Wenjuan Zhang, Yan Jin and Yongsheng Zhao*
10. Role of Finance in the Competitiveness of Indigenous Contractors – The Case of Hong Kong  
*Theresa Y. M. Chan and Y.H. Chiang*

#### **Decision Making and Risk Analysis**

11. Modeling Concession Project Investments Under Uncertainty: A Critical Review  
*Alison McCowan and Sherif Mohamed*
12. A Conceptual Model for Holistic Decision Making in Projects  
*Ali Jaafari, David Gunaratnam and Kitsana Kit Manivong*
13. An Intelligent Decision Support System for Project Managers  
*Saad H. Al-Jibouri, Michael. J. Mawdesley and G. Al-Mohamdi*

14. Efficient Resource Planning for Infrastructure Programs  
*Tarek Hegazy and Ahmed Elhakeem*
15. Scope Definition and Project Risk Analysis  
*Yu-Ren Wang and G. Edward Gibson, Jr.*
16. Risk Identification and Mechanisms for Mitigation  
*Mark W. Cohen*
17. Risk Management in Design/Build  
*Talal Abi-Karam*
18. Analytic Hierarchy Process: A Decision-Making Method for Construction Management  
*Eddie W.L. Cheng and Heng Li*
19. Economic Risk Evaluation for Residential Housing Projects  
*Abraham Warszawski and Rafael Sacks*
20. Risk-Based Decision in the Corroding Gas Pipelines Maintenance  
*N. Yahaya and J. Wolfram*
21. A Risk Model for Appraisal of Construction Projects at Tender Stage  
*Saad H. Al-Jibouri, Michael. J. Mawdesle and P.J. Dawson*
22. Managing International Aspects of Engineering Risks  
*John Ciccarelli*

## **Construction Project Management**

### **Supply Chain and Procurement Management**

23. Innovative Initiatives in Integrating Construction Supply Chains  
*Mohan M. Kumaraswamy, M. Motiar Rahman, Ekambaram Palaneeswaran and S. Thomas Ng*
24. Cross-Functional Product Development Teams for Enhancing the Effectiveness of Supply Chains in the Housing Industry  
*Kaushik Sahu and P. K. Das*
25. Intelligent Virtual Construction Material Supply Chain Environment  
*Chika Udejaja and Joe Tah*
26. Development of an E-Business Solution for the Integration of Steel Reinforcement Supply Chain in Construction Projects  
*Daniel Castro-Lacouture and Mirosław J. Skibniewski*
27. Policies, Principles and Procedures for Construction Procurement in the Public Sector of Malaysia  
*Khairuddin Abdul Rashid*
28. Innovative Methods for Reducing Construction Time of Transportation Projects in Urban Areas  
*Zohar J. Herbsman and Cristina Cosma*
29. Integration of Supply Chains and Construction Schedule on Highway Projects  
*John Sobanjo*
30. Conceptual Framework for Developing Generic Integrated Supply Chain Management Model for Construction Industry  
*Tayyab Maqsood, Akintoye Akintola and Salman Azhar*

### **Construction Process Reengineering**

31. A Dynamic Simulation Modelling System for Process Reengineering and Optimisaion  
*Hemanta Doloi and Ali Jaafari*

32. Improving the Value Generation Cycle in the Design Process of Industrial Construction Projects  
*Leonardo Rischmoller, Luis Fernando Alarcón and Lauri Koskela*
33. Creating Lean Enterprises through Process Orientation – Models for New Business Opportunities  
*Christian Lindfors and Roine Leiringer*

#### **Safety and Quality Management**

34. Incorporating Safety into Construction Site Management  
*Emad Elbeltagi and Tarek Hegazy*
35. The Performance Approach to Construction Worker Safety – A Model for Implementation  
*Theo C. Haupt*
36. Trench-Related Fatalities in Construction: An Analysis of Fatality Assessment and Control Evaluation (FACE) Records  
*Carlos A. Arboleda, Dulcy M. Abraham, Reini Wirahadikusumah and Javier Irizarry*
37. Product and Process Quality Aspects of Ready-Mixed Concrete Technologies  
*Arne Ziegert and Jan Bröchner*
38. Quality Development in Hong Kong Public Housing  
*A.P.C. Chan, F.K.W. Wong, P.T.I. Lam and J.C.W. Choi*
39. The Year 2000 Version of ISO 9000 and the Process Cost Model for Measuring Quality Costs in Construction Processes  
*Raymond T. Aoieong and S.L. Tang*
40. Construction Quality Assessment System (CONQUAS): The Singapore Experience  
*Patrick TI Lam, Albert PC Chan and Wilson CY Shea*
41. Value Optimisation of Building Components in Design Process  
*Kai-Tak Cheung, Sai-On Cheung and Derek Drew*

#### **International Issues**

42. Performance of International Construction Joint Ventures: An Empirical Analysis  
*Sherif Mohamed*
43. Understanding ‘Culture’ in an International Construction Context  
*Vasantha Abeysekera and Praveen Lata*
44. Linking Trends in the Construction Industry to Globalisation and the Transition in South Africa  
*Gavin Shor*
45. The Egan Report: An Agenda for Change? The Views of UK Construction Directors  
*David Proverbs, Gary Holt and Hoon Yeow Cheok*

#### **Partnership and Contractual Issues**

46. Construction Negotiation: An Even Swaps Approach  
*Sai-On Cheung, Kenneth Tak-Wing Yiu and Henry Suen*
47. Problem Resolution in Partnering: A Case Study  
*Heng Li, Eddie W.L. Cheng, Peter E.D. Love, Luke H.W. Leung*
48. Current Legislative Developments Effecting Dispute Resolution in the Construction Industry in New Zealand  
*David Gatley*
49. The Relationship between the Specification, Low-Bid Process and Construction Nonperformance  
*Dean T. Kashiwagi and John Savicky*
50. Developing a Best Practice Partnering Framework in Hong Kong  
*A.P.C. Chan, P.T.I. Lam and D.W.M. Chan*

51. Partnering Impact on Change Orders for Mid Size Commercial Construction Projects  
*Peter Wanjoga and Khalid Siddiqi*

### **Project Management Issues**

52. Constructability Versus Communications  
*Graham Miller and David Risby*
53. Establishing Multiskilled Teams - Lessons from Danish Construction  
*Christian Koch*
54. Causes of Construction Delivery Complexity and Nonperformance  
*Dean T. Kashiwagi and John Savicky*
55. Design-Build Combined Cycle Power Plant Project Management  
*Brian Gibson*
56. Critical Success Factors for the Construction Industry  
*Gena L. Abraham and Paul Chinowsky*
57. A Conceptual Framework for Integrated Program and Project Management  
*Stephen P. Mulva and Jorge A. Vanegas*
58. Current Level of Satisfaction with Construction Material Logistics Tasks  
*HyounSeung Jang and Jeffrey S. Russell*
59. Assessment of CII Best Practices Implementation at the Organizational Level  
*SangBum Kim and G. Edward Gibson Jr.*
60. Lean Methods in Construction  
*Lincoln H. Forbes*

### **Education and Training**

61. Knowledge, Leadership, Competencies, Mindsets and the Role of Educational and Research Institutions  
*Ali Jaafari*
62. Trends in Employment, Women in Construction  
*John M. Dye and Syed M. Ahmed*
63. Building Engineers- New Paradigms for Education?  
*Christian Koch*
64. Teaching from a Distance with WebCT  
*Brian Moore and Arlan Toy*
65. Utilizing Great Books to Enhance Construction Management Classes  
*John W. Martin*

## **Information Technology and Information Systems in Construction**

### **Information Technology**

66. The Effect of the Unique Characteristics of the Construction Industry on Information Management in Construction Firms  
*J. K. Ssegawa*
67. Applications and Effects of Emerging Automated and Information Technology in Construction  
*Amaury A. Caballero*
68. Engineering and Construction Collaboration using Information Technology  
*Liang Y. Liu and Christopher Erickson*
69. Analyzing the Application of Information and Communication Technology for Construction KMS  
*Tai Sik Lee, Hee Chul Lee and Young Hyun Kim*

70. Forecasting Organizational Performance under Fluctuating Economy  
*Stephen Ogunlana and Tang Yu Hoe*
71. Strategic Implementation of IT/IS Projects in Construction: A Case Study  
*Rodney A. Stewart, Sherif Mohamed and Raul Daet*
72. Web-Based 4D Visualization for Real-Time Construction Simulation  
*Julian H. Kang, Stuart D. Anderson and Mark J. Clayton*
73. Electronic Documents: Saving Contractors Time and Money  
*Kevin Miller*
74. Impact of Web-Based 4D Visualization in Construction Scheduling  
*Julian H. Kang, Stuart D. Anderson and Mark J. Clayton*
75. Project Modeling of Labor Inputs for Automated Control in Building Construction  
*Rafael Sacks, Ronie Navon and Eytan Goldschmidt*
76. Investigating the Use of Wearable Computers in Construction  
*Scott Fuller and Anoop Sattineni*
77. E-Coordinating Infrastructure Decisions  
*Tamer E. El-Diraby*
78. Towards a Centralized Contractor Registration System through E-Registration  
*S. Thomas Ng, Mohan M. Kumaraswamy and Ekambaram Palaneeswaran*
79. IT Providing a Path from Research to Practice – Promoting Use of Environmentally Friendly Cement and Concrete in Construction  
*Irina Kondratova, Theodore W. Bremner and Ilia Goldfarb*
80. Beating the Use of Heuristics in Construction Process: Can Information Technology do It?  
*Tayyab Maqsood, Chotchai Charoenngam, Terry Clayton and Salman Azhar*

#### **Information Systems**

81. Tools and Techniques for Intelligent Project Management Information Systems: Heralding a New Project Management Paradigm  
*Kitsana Kit Manivong, Ali Jaafari and David Gunaratnam*
82. Construction Management Information Systems for Linear Projects – Application in the Greek Railway Construction Management Company  
*John – Paris Pantouvakis*
83. Designing Information Model for the Project Management Information System (PMIS): A Case Study  
*Seok Heon Yun*
84. A Conceptual Model of a Productivity Information Management System for Construction Projects  
*Jung-Ho Yu, Kyung-Whal Kim and Hyun-Soo Lee*
85. Optimization of Ready Mixed Concrete Plant Operations Using Simulation Techniques  
*K.C. Ying, S.L. Tang, M. Anson and M. Lu*
86. Resource Optimization in a Design Office Using GA-Based Simulation  
*Tarek Hegazy and Moustafa Kassab*
87. Simulation Modeling by Enterprise Resources Planning Implementation in Medium Sized Corporation  
*Sangyoub Lee, Ahsan Ullah Arif and Daniel W. Halpin*
88. Simulate Road Construction Operations using Simplified Discrete-Event Simulation Approach (SDESA)  
*Ming Lu*

89. Shoring Loads in Multistory Structure: An Artificial Neural Network Model  
*Mohammed E. Haque and André Mund*
90. Comparative Study on Forecasting Demand of Low Cost House in Urban Areas using Artificial Neural Networks and Arima Model  
*Muhd Zaimi Abd Majid and Khairulzan Yahya*
91. Accident Risk Effect: Fuzzy Logic & Simulation Based Analysis  
*Sangyoub Lee and Daniel W. Halpin*
92. A Graphical/Geometric (Visual) Common Language for the Production Home Builders  
*Yvan J. Beliveau and Ozgur Cakir*
93. A Model for Testing the Impacts of Different Project Resource Organisations on the Construction Programme  
*Saad H. Al-Jibouri*
94. Construction Information Management System on the Basis of the Mobile Internet  
*Tai Sik Lee, Sung Hyun Yi and Dong Wook Lee*
95. A Study of the Improvement in Quality Management with Database  
*Tai Sik Lee, Young Hyun Kim and Hee Chul Lee*
96. A Survey of the Implementation of Knowledge Management in Construction Enterprises in Korea  
*Tai Sik Lee, Dong Wook Lee and Sung Hyun Yi*
97. Data Warehousing in Construction: From Conception to Application  
*Irtishad Ahmad and Salman Azhar*
98. Analysis of Ground Penetrating Radar Signals for Pavement Condition Evaluation  
*Charles Nunoo, Hesham Ali and Donath Mrawira*

## **Construction Technology**

### **Innovative Construction Technology and Techniques**

99. A Modular Housing System: ARTI  
*Huseyin Kahvecioglu and Nurbin Paker-Kahvecioglu*
100. Criteria for the Selection of Deployable and Rapidly Assembled Structures  
*Katherine A. Liapi and Stephen J. Donley*
101. The Simulated Thermal Performance of a Two-Storey Earth Sheltered House with Single Adult Occupancy in a Temperate Climate  
*J.R. Littlewood and A.J. Geens*
102. Studies on Low-Cost Construction System for Concrete Structures by Using UCAS Method  
*Kohei Yamaguchi, Toshiaki Ohta, Aya Ohta and Hiroki Goda*
103. Steel Composite Beam Stiffened with C-Channel  
*Mahmood Md. Tahir and Airil Yasreen Mohd Yassin*
104. Modeling Earth Moving with Component-State-Based Criteria Method  
*D. K. H. Chua, B. Tan and J. K. F. Lee*
105. Internal Profile Measurement using Rotating Laser-Based System  
*Masahito Tanaka, Bharath Leeladharan, Hongtao Wu and Ampere A. Tseng*
106. The Information Solution to Handicapped Access Ramp Requirements  
*Dean T. Kashiwagi and Keith P. Touchet*
107. Concrete Bored Piles Construction Productivity Index  
*Tarek M. Zayed and Daniel W. Halpin*

108. Challenges for Cutting-Edge Construction  
*Roger. A.F. Smook and Emilia.L.C. Van Egmond - De Wilde De Ligny*
109. Circular Cell Cofferdam Sheet Piles Installation and Design: The Iranian Method  
*Afshin Turk and Saeid Ebrahimzadeh*
- Sustainable Construction Techniques**
110. Required Changes in Construction by Paradigm Shift for Sustainable Development in the Asia in 21st Century  
*Keizo Baba*
111. Construction in the Twenty-First Century Trends and Outlook  
*Talal Abi-Karam*
112. The Role of Indigenous Construction Technology in Sustainable Construction Practices  
*Alfred Talukhaba and Winston Shakantu*
113. Technological Capabilities for Sustainable Construction  
*Emilia.L.C. van Egmond – de Wilde de Ligny and Roger.A.F. Smook*
114. Development and Implementation of the South African Construction Excellence Model (SACEM)  
*Sihle Dlungwana, Xolani H. Nxumalo, Steve van Huysteen, Pantaleo D. Rwelamila and Canon Noyana*
115. Benchmarking Best Practice to Achieve a Competitive Advantage in the Southern African Construction Industry  
*Winston Shakantu and Alfred Talukhaba*
116. Protection to Flora and Fauna: The Problems for Construction - A Case Study of Chiroptera in the United Kingdom  
*Peter Fenn*
117. *Withdrawn*
118. Modes of Application of Smart Structures and Systems in Construction  
*Tamer El-Diraby and Khan Falahudin Kashif*
119. Promotion of Energy Efficient Design: A Case Study in China  
*Qi Bao and Liyin Shen*
120. Developing Ecologic Housing – Case Studies in China  
*Dehua Wu and Liyin Shen*
121. Modelling Waste Flow Practice on Construction Site  
*L. Y. Shen, Vivian W. Y. Tam and C. M. Tam*
122. Soil-Cooper Waste Residue as Mineral Additive for Mortar or Concrete Used in Sustainable Construction  
*Jorge Gomez Domínguez and Luis Balderrama Neder*
123. Techniques to Develop Needs Model on Housing in Urban Area: A Literature and Malaysian Experience  
*Noor Yasmin Zainun and Muhd. Zaimi Abd. Majid*
124. Managerial System for 21<sup>st</sup> Century Construction of Affordable Houses  
*Roberto Soares*
125. Promotion of Sustainable Construction Techniques in Existing Building Assessment Methods: A Comparative Analysis of Gbtool, Breeam, Leed and Sbat  
*Ewelina Kaatz, Paul Bowen and Richard Hill*

### **Additional Papers on Information Technology in Construction**

126. Web-Based Tool in Project Quality Management  
*Donath Mrawira, Jeff Rankin and Charles Nunoo*
127. Computer Simulation Analysis to Reduce Asphalt Paving Process Duration  
*Yassir A. AbdelRazig*
128. Development of an Integrated Database for 4D/VR Construction Processes Simulation  
*Nashwan Dawood, Eknarin Sriprasert and Zaki Mallasi*
