## **CERTIFICATES**

Certificate Programs are structured combinations of courses with a common base of interest from one or more disciplines into an area of concentration. Successful completion of a Certificate Program is entered on the student's transcript and records. Two types of certificates are awarded:

### **ACADEMIC CERTIFICATE**

Awarded by an academic unit to a student at the time of awarding a bachelor's degree; or upon completion of the

appropriate coursework to a student who already has a bachelor's degree.

An academic certificate shall not be awarded to a student who does not possess either a bachelor's degree or does not complete a bachelor's degree program. An academic certificate is to be interdisciplinary in nature, to the greatest extent possible.

### **PROFESSIONAL CERTIFICATE**

Awarded by an academic unit to an individual who completes the appropriate coursework in the area of concentration. The professional certificate does not need to be interdisciplinary or associated with a degree program.

*For details and course requirements, refer to the appropriate section in each College or School.*
